About Me

A dedicated and enthusiastic job seeker seeking a challenging career opportunity where I can apply my knowledge, strengthen my skills, and demonstrate my capabilities through hard work, continuous learning, and a commitment to excellence. Adaptable, responsible, and eager to embrace new challenges, I am committed to contributing effectively to organizational success while building a rewarding and growth-oriented professional career.

Technical Skills

1. Programming Languages: Python, Java, MySQL
2. Web Technologies: Django, HTML, CSS
3. Data & Machine Learning: Pandas (Basics), NumPy (Basics), Machine Learning Fundamentals
4. Tools and Platforms: Pycharm, VS Code, GitHub
5. Database: MySQL

Projects

Smart Aluminum Extraction and Resource Optimization System

Technologies: Python, Django, Pandas, HTML, CSS, Database

- Developed a Django-based web application for managing aluminum extraction materials, process parameters, extraction results, and historical records.
- Integrated an aluminum extraction dataset using Pandas for processing and importing process parameters and results into the application.
- Implemented user/admin functionality, material management, result tracking, history, and a customized web interface.

GitHub: https://github.com/evangelinblessy-03/smart-aluminum-extraction-system

Optimized Smart Car Parking in Fog Computing Using Grey Wolf Optimization

Technologies: Java, Fog Computing, iFogSim, CloudSim, Grey Wolf Optimization

- Developed a smart car parking simulation using Fog Computing to process IoT-generated parking data closer to the edge.
- Applied Grey Wolf Optimization to improve task allocation and load balancing within the fog environment.
- Evaluated system performance using parameters such as execution time, latency, energy consumption, and communication/network usage.

Internship

Python Full Stack Development Intern
Gradtwin (OPC) Services Private Limited | 3 months

- Developed and tested Python-based application components.
- Worked with Django for web application development.
- Implemented and debugged application features using Python, HTML, CSS, and database technologies.
- Gained practical experience in software development, debugging, and problem solving.

Education

Master of Computer Applications (MCA)
Hindustan Institute of Technology and Science, Padur, Chennai (2024 – 2026)
CGPA: 9.18

Bachelor's Degree in Mathematics
St. Jude's College, Thoothoor, Kanniyakumari
CGPA: 7.12

Research/Paper Presentation

Authored and presented “Optimized Smart Car Parking Using Grey Wolf Optimization” at the IEEE International Conference on Inventive Computing and Informatics (ICICI 2026).

Certifications

- Python Internship Completion Certificate – Gradtwin Services (OPC) Private Limited
- Internship Experience Certificate – Gradtwin Services (OPC) Private Limited
- Typewriting – Junior Level Certificate
- Academic Project Presentation Certificate – ICICI 2026
